Elecraft KX1 4-band w/KXAT1 auto tuner and KXPD1 paddle. Good condition - this has been my POTA rig until this year when I decided to start doing picnic table operations with my KX3. No battery leakage corrosion. Normal wear. Complete with build manual. I'll also include a SOTABeams Flight Deck for the KX1.

Price is \$750 plus actual shipping and insurance. Continental US only. Pictures on request. I can arrange a VERY slow sked if requested.

HARDROCK-50 HF AMPLIFIER w/BUILT IN ATU! \$530

Enter your items below
with detail and pricing.

RF PowerTools award winning design (formerly Hobby PCB) Hardrock-50 HF Amplifier with the ATU Board a GREAT TUNER) which is a two hundred dollar option alone! The ATU board also adds 60M but obviates ability for the QSK board as they share the same space in the beautiful brushed aluminum enclosure. Manual or auto band switching.

I am including a DC/PowerPole cable, a 3.5mm cable, and the Elecraft KX3 interface (interfaces available for other radios) and a padded zip case. Puts out 45-55W (with 1-2W drive) on all except 6M where I get 38-40. WAY lighter than either the Elecraft or Xiegu amps with MUCH lower power draw. Non-smoking home.

.Offered for \$530 via Zelle or cash-in-person to your QRZ CONUS address free Priority Mail shipping (2-3 day)

Wilderness Sierra CW Transceiver

in good working order (I'm not the builder, I bought this rig used),
photos available on request.

Included accessories:

Band Packs for: 40m, 30m, 20m, 17m, 15m

Installed: KC2 Keyer/digital display, and noise blanker.

Power cord.

Photocopied assembly manual.

I just tested the output from this rig with a WM-2 wattmeter with these results:

40m - 4 watts

30m - 4 watts

20m - 3 watts

18m - 0.1 watt

15m - 0 watts

Enter your items below
with detail and pricing.

I suspect the band packs for 18m and 15m just need alignment, since I'm getting full output on 40m.

This is an analog classic, the commercial kit version of the Norcal Sierra. They are hard to find, and I would not be letting it go except for the need to downsize (and the other 7 QRP rigs I own.)

Everything will be packed carefully, and be shipped UPS insured.

\$500 shipped domestic (ask for dx shipping price)

Payment via Paypal or Venmo only.
